What is Pinsa?

Pinsa is the culmination of over 100 years of Roman artisan baking expertise, creativity and experience. The origins of Pinsa trace all the way back to the ancient Roman Empire.

Our Pinsa is slowly proofed for 72 hours, creating an easily digestible dough. Made of an 80% water to flour ratio, instead of a 55-60% in a traditional pizza dough, Pinsa results in a lower calorie and lighter dough.

Our Pasta

Our Fresh Pasta is made daily from only the best quality semolina and water, using bronze dies to create a better porous texture and to improve the mouthfeel and flavours.

Grazie
